Data Analyst

Data Analyst with a background in Computer Science Engineering and hands-on experience in data analysis, data cleaning, visualization, and reporting. Proficient in SQL, Microsoft Excel, Power BI, and Python, with experience working with datasets to identify trends, generate insights, and build interactive dashboards. Currently pursuing an M.Tech in Computer Science and Engineering and seeking opportunities to apply analytical and problem-solving skills to real-world business problems.

WORK EXPERIENCE

SkillCraft Technology **09/2026 – Present**
Data Analyst Intern•Internship **India**

- Clean, transform, and analyze real-world datasets using Python (Pandas/NumPy) and SQL to ensure data accuracy and readiness for modeling.
- Build interactive Power BI dashboards and reports using Excel and DAX to track key metrics and visualize complex data trends.
- Perform exploratory data analysis (EDA) to uncover actionable insights and solve core business problems.

Vaidsys Technologies **11/2025 – 12/2025**
Full-Stack Development Intern•Internship **India**

- Gained hands-on experience in full-stack web application development, working across frontend and backend components.
- Worked with web technologies and databases to develop and improve application functionality.

Bluestock Fintech **11/2025 – 12/2025**
Software Development Engineer (SDE) Intern•Internship **India**

- Gained hands-on experience in software development and real-world fintech applications.
- Contributed to software development tasks while applying programming and problem-solving skills.

Uptricks Services Pvt. Ltd. **10/2025 – 12/2025**
Front-End Development Intern•Internship **India**

- Developed responsive and user-friendly web interfaces using HTML, CSS, JavaScript, and Bootstrap.
- Implemented interactive UI components and contributed to front-end development tasks while following responsive design practices.

Suvidha Foundation **10/2025 – 11/2025**
Technical & Social Intern•Internship **India**

- Participated in assigned technical and social projects and activities as part of the internship program.
- Contributed to social development campaigns and community engagement activities while demonstrating professionalism, discipline, and teamwork.

EDUCATION

M. Tech in Computer Science and Engineering Meerut, India
Sir Chhotu Ram Institute of Engineering & Technology 09/2026 – Expected 09/2028
(SCRIET)

B.Tech in Computer Science Noida, India
JSS Academy of Technical Education 01/2022 – 01/2026

CERTIFICATIONS

Deloitte Australia – Data Analytics Job Simulation

Forage ([View](#))

08/2026 – 08/2026

Tata – Data Visualization: Empowering Business with Effective Insights Job Simulation

Forage ([View](#))

08/2026 – 08/2026

AWS – Solutions Architecture Job Simulation

Forage ([View](#))

PROJECTS

House Market Data Analysis ([GitHub](#))

- Analyzed 100,000-row housing dataset using Google BigQuery, SQL, Power BI, and DAX to evaluate sales, pricing, regional, and property-type trends.
- Developed interactive Power BI dashboards with time-based DAX calculations, dynamic filtering, and KPI analysis to evaluate housing market performance.

Elite Attire Sales Data Analysis ([GitHub](#))

- Performed end-to-end sales and pricing analysis using SQL Server, Azure, Power Query, and Power BI on a 1,428-row apparel dataset.
- Built interactive Power BI dashboards to analyze brand performance, pricing, discounts, product variety, and profitability metrics.

Insurance Claim Analytics ([GitHub](#))

- Developed an interactive Power BI dashboard to analyze insurance premiums, coverage, claims, policy status, and customer segments.
- Implemented Row-Level Security (RLS), drill-through functionality, interactive filtering, and sentiment analysis for customer feedback.

Student Depression & Mental Health Analysis ([GitHub](#))

- Analyzed a 502-row student dataset using SQL and Tableau to explore study hours, sleep duration, study satisfaction, academic pressure, and financial stress.
- Designed a Tableau dashboard combining multiple visualizations to compare student counts across academic, lifestyle, and financial factors.

SKILLS

- **Data Analysis & Visualization:** Microsoft Excel, Power BI (DAX), Python (Pandas, NumPy, Matplotlib, Seaborn), SQL, Tableau
- **Analytics Concepts:** Data Cleaning & Transformation, ETL Processes, Exploratory Data Analysis (EDA), Feature Engineering, Statistical Analysis
- **Databases & Tools:** Git, GitHub, Microsoft Azure, Microsoft SQL Server, MySQL, Snowflake
- **Data & Business Skills:** Business Insights, Dashboard Development, Data Interpretation, Data Modeling, Data Presentation
