

ANURAG TYAGI

C S M A J O R F R E S H E R

PROFILE

I am an individual who has an appetite for learning new things in this swiftly growing world. I know how to prosecute Deep Work. Doing things before deadlines and giving my chores with a little bit something more just to give it a signature touch is my practice. I want to test my abilities with real life hands on work experience and ethics thereby I seek to participate in Industrial Training as well!

PROJECTS

Data Analytics Projects

UPI Transactions Data Analysis

- Conducted comprehensive analysis of UPI transaction datasets to uncover financial patterns and user behavior.
- Designed and developed interactive dashboards in Power BI, utilizing DAX for advanced calculations and data modeling.

Sales Data Analysis

- Analyzed complex sales data to identify emerging trends and extract insights that directly informed strategy development.
- Utilized Python and Excel to perform end-to-end data cleaning, processing, and visual representation.

SQL + Power BI Integration (Ongoing)

Developing an end-to-end analytics pipeline integrating advanced SQL data retrieval techniques with Power BI for dynamic visual representation.
